

# Welcome to Join Nanjing Agricultural University with Promising Job Opportunities

Nanjing Agricultural University (NAU) sincerely invites you, outstanding talents from all over the world, to join us in building a world-class agricultural university.

## **We are inviting the following talents with corresponding benefits packages:**

### **1. Outstanding scholars**

Qualifications:

Talents with professional titles equivalent to or above associate professorship, from world-famous universities and research institutions, and with outstanding achievement in teaching and research.

Benefits:

- 1) Competitive salary, to be discussed on a case-by-case basis;
- 2) Position of Chair Professor or Distinguished Professor of the *Zhongshan Scholar Program*.

### **2. Members of the “Young Thousand Talents Program”**

Qualifications:

Members of the “Young Thousand Talents Program” with outstanding achievements in teaching and research.

Benefits:

Position of third-grade professor, supplied with an apartment for living, a relatively independent team for research, research space of 150 square meters in area, and a start-up research fund of three million RMB.

### **3. Professors**

Qualifications:

Professors who have published high level papers as the first authors or the corresponding authors in the top journals of the related field of research.

Benefits:

Position of fourth-grade professor, or leading professor of the *Zhongshan Scholar Program* when evaluated and selected, supplied with an apartment, necessary laboratory space and a start-up research fund of one to three million RMB.

### **4. Outstanding young researchers**

Qualifications:

Doctorate recipients or doctorate recipients with postdoctoral experience from world-famous universities or research institutions;

Benefits:

Opportunities to be selected as a member of the *Zhongshan Scholar Program*, supplied with a start-up research fund of 60–100 thousand RMB and a rent subsidy of 2000-2500 RMB per month.

### **5. Post-doctoral researchers**

Qualifications:

- 1) Under the age of 35;
- 2) PhD degree received from world-famous universities or research institutions.

Benefits:

- 1) An annual salary of 180,000 RMB, with additional financial support when working as a co-supervisor;
- 2) Enjoying the same research incentive policy as that for NAU faculty members;
- 3) Supplied with a start-up research fund of 60–100 thousand RMB.

## **II. We are interested in the following fields and subjects of research:**

Major fields of research:

Genomics and Phenotype omics, Microorganism-botany-pest Interactions, Food Engineering and Human Health, Agricultural Machinery Engineering and Precision Cultivation, Agricultural Economic Management and Social Sciences.

Major subjects involved:

Crop Science, Agricultural Resources and Environment, Plant Protection, Veterinary Science, Horticulture, Agricultural Economic Management, Land Resource Management, Food Science, History of Science and Technology, Ecology, Animal Husbandry, Grass Science, Public Management, Industrial Economics, Business Administration, Finance, Agriculture and Bioinformatics, Marine Biology, Modern Agricultural Equipment Engineering, and so on.

Besides, we welcome applicants with inter-disciplinary research background to join us, and we will include you in the “talent pool” program of NAU.

## **III. You can apply by preparing the following documents:**

1. A detailed resume, including educational background and work experience, publications, research projects, and award certificates, etc.;
2. Copies of diploma, degree certification and current employment certification;
3. Full texts of five representative publications in the past five years;
4. Personal academic achievement profile and future work plan (within 1,000 words);
5. Three recommendation letters by related professors or associate professors;
6. Fill in the attached *NAU Review Form of High-Level Talent Introduction*.
